

## Union United Membership Pledge

Union United is a coalition of stakeholders, including small business owners, residents, activists, immigrant groups, religious congregations, labor unions, and community-based organizations, working to ensure that the Union Square redevelopment process results in tangible benefits — not displacement — for the Union Square community. We are working together to create a community benefits agreement — a contract we can sign with the master developer and the City that will create a diverse, sustainable, and equitable Union Square.

As a member of Union United, I commit to the following priorities:

- Affordable housing
- Community space and resources
- Local jobs and workers' rights
- Open space and green space
- Public safety
- Support for small and local businesses
- Transparent and participatory planning processes
